KANSAS CITY, HERE WE COME!

MoANA Spring Meeting

Featuring 12 Hours of Class A CE
Including 2.0 Credits in pharmacology/therapeutics
and 8 Hours of Hands-On Learning

April 6-8, 2018
University of Missouri – Kansas City
in partnership with Truman Medical Center School of Nurse Anesthesia
2464 Charlotte Street, Kansas City, MO  64108

✓ close, convenient, free parking
✓ state-of-the-art facilities allow us to continue to offer

8 hours of hands-on sessions will feature:
• Truncal blocks
• EKG interpretation
• Chest X-ray interpretation
• Ventilator management
• Interactive learning simulation
  and much more!

Hotel Reservations
A block of rooms has been reserved at the Westin Kansas City at Crown Center for your use if you or your representatives desire lodging. The Westin Hotel is located at 1 E Pershing Rd., Kansas City, MO.
The block of rooms will be held until March 7th for a special rate of $175.00 per night + parking.
Please make your reservations soon by calling 816-474-4400.
Please state that you are with the Missouri Association of Nurse Anesthetists.
The group code is 40008.

Cancellation Policy
A full refund will be given if written notification is received at least three business days prior to the scheduled meeting. From that date until seven business days following the meeting, a 50% refund will be given upon written request. After the seven-day period, no refunds will be given.
**PAC Event – Brio Tuscan Grill**  
502 Nichols Rd Kansas City, MO 64112

MoANA/PAC Fundraiser Reception & Fun!  
Saturday, April 7 – 8:30 pm Following Merck dinner  
Cost: $100 – CRNA  
$50 – Students  
FREE dinner at sponsored by Merck for CRNAs at 6:30 pm then STAY for the PAC Reception!  
(These are separate events and the Merck dinner is NOT a PAC/MoANA function– but scheduled so CRNAs can easily attend both!)  
As we gear up for a huge election year, we are changing the PAC format.  
EVERYONE IS ENCOURAGED TO ATTEND

*Attendees are encouraged to dress comfortably for walking and participating in hands-on learning activities  
Gowns and gloves will be supplied as needed.

MoANA Continuing Education Chair  
Chris Black, CRNA, MS

Program Objectives
The Missouri Association of Nurse Anesthetists is dedicated to the presentation of educational programs for CRNAs and anesthesia students to provide updates and review for anesthesia practice. At the conclusion of this meeting, the participant should be able to:

1. Discuss the epidemiology and cellular mechanisms of MH.
3. Recall basic principles of pharmacokinetics
4. Review normal and abnormal pharmacological actions, interactions, and adverse effects medications
5. Know what is happening on the state and federal level that can affect your practice
6. Learn why advocacy is important and how you can take part
7. Detail the events that led to current state and size of the United States Healthcare System
8. Describe current issues economic and otherwise that impact provision of care and cost of that care
9. Appreciate the impact of technology on future patient care as well as specific anesthesia implications in that change
10. Discuss performance improvement practice initiatives
11. Explore advancements in evidence based practice
12. Review anatomy for common truncal blocks: TAP, rectus sheath, PEC 1, and PECS II.
13. Practice ultrasound scanning/driving for common truncal blocks.
14. Review anatomy for interscalene, supraclavicular, adductor canal, and popliteal blocks.
15. Practice ultrasound scanning/driving for interscalene, supraclavicular, adductor canal, and popliteal blocks.
16. Discuss a systematic approach to 12-lead ECG interpretation
17. Practice advanced ECG analysis: axis, hypertrophy, 3 I’s, & ST segment
18. Utilize cognitive aids to systematically respond to low frequency, high mortality events.
19. Evaluate performance of teamwork and communication skills employed during an anesthesia crisis event
20. Differentiate between advanced modes of ventilation.
21. Select appropriate settings for different patients and co-morbidities.
22. When evaluating research studies be able to understand relationships of effect size, power analysis, probability and odds ratios.
23. Acquire best practices when conducting research surveys: informed consent, anonymity, consistency and collecting demographic data.
24. Explain a systematic approach to chest radiography interpretation
25. Illustrate common "signs" to assist in image interpretation

This program has been prior approved by the American Association of Nurse Anesthetists for 12.00 Class A CE credits; Code Number 1035815; Expiration Date 4/8/2018. AANA designates this program as meeting the criteria for up to 2.00 CE Credits in pharmacology/therapeutics.
